Your Transformation - Bullworker Personal Home Fitness ...
What Is the Bullworker? The Bullworker is an exercise device that's used for isometric exercise. It features spring-loaded, contracting cylinders and users push inward on both ends of the device to work the arm muscles. It has strap down the side which expand the workout to include pulling out for lateral workouts.

Free Bullworker Wallchart - Isometric Exercise Training ...
The support from the Bullworker Fitness Group has been fantastic, always something to learn to help with results. I strongly believe that the Bullworker is the best all-around fitness equipment ever made for the human body. It helps me feel better, look better and perform better!!! For example, in just 90 days my waist went from 40 1/2 inches to 34 3/4 inches measured at the belly button, this ...

Bullworker - Isometric Exercise Equipment - Portable ...
Bullworker original I bought my Bullworker about 50 years ago after a serious illness, to help rebuild my body, which it did! I am now in my 70's and am rebuilding lost muscle tone - and succeeding! This product is a splendid piece of kit, and my Bullworker has helped keep me fit for about 50 years. Brilliant product, and it doesn't take hours per day, literally just a few

minutes per day ...

The Original Bullworker buy at Sport-Thieme.co.uk
The original Bullworker consists of two sleeved. Spring-loaded, telescopic cylinders in the center, with two hand grips affixed at the outermost ends. Two opposing cables are attached to the hand grips at each end of the device. The apparatus weighs about four pounds. Exercises are performed by pushing inwards on the contractible cylinders or by pulling the cables outwards, away from the ...
