Types Of Learners Visual Learners

Visual learners tend to use sight words in their everyday terminology. For example, they might say, "Let's take a look at this." They easily remember details including colors and spatial arrangements, and they excel at memory games that require

visual recall. They often have a good sense of direction because they can visualize maps and directions in their mind.

Styles and Strategies for Visual Learners

Strengths of Visual Learners. Instinctively follows directions. Easily visualizes objects. Has a great sense of balance and alignment. Is an excellent organizer. Has a strong sense of color, and is very color-oriented. Can see the passage from a page in a book in his or her mind.

Different Types of Learning Styles - Visual, Auditory, and ...

One way to be truly successful in the classroom is to wrap your head around the three different learning styles according to Fleming's VAK (visual, auditory, kinesthetic) model.If you know how you learn best, you

can use specific methods to retain what you learn in class.Different learning styles require varied methods to keep you motivated and successful in the classroom.

Auditory, Visual and Kinesthetic

Learning Styles

When teaching visual learners, teachers need to provide posters, digital displays, books or handouts with graphics. Use color, size and position to highlight information. For auditory learners, present information through discussion,

lecture, reading aloud or recorded interviews.

Types of Learners

The VARK model of learning styles suggests that there are four main types of learners: visual, auditory,

reading/writing, and kinesthetic. The idea that students learn best when teaching methods and school activities match their learning styles, strengths, and preferences grew in popularity in the 1970s and 1980s.

Overview of VARK Learning Styles Sensing learners Concrete, practical, oriented towards facts and procedures. Intuitive learners Conceptual, innovative, oriented toward theories and meanings. Visual learners Prefer visual representations of presented material – pictures,

diagrams, flow charts. Verbal learners Prefer written and spoken explanations. Inductive learners

---

Example One: Visual, auditory and kinesthetic learning styles

Because every student is different,

it's a good idea for teachers to develop classroom strategies that incorporate different learning styles for different types of learners. The VARK model helps teachers do this. It is an acronym that refers to the four learning styles: visual, auditory, reading/writing preference, and

kinesthetic.
