He was the author or co-author of more than 350 scholarly papers and more than 50 books, including one of the most popular books in his field, first published in 1965 and reprinted by Dover in 1987, *Fifty Challenging Problems in Probability with Solutions*.

*Fifty Challenging Problems in Probability with Solutions ...*

“ In a problem, the great thing is the challenge. A problem can be challenging for many reasons: because the subject matter is intriguing, because the answer defies unsophisticated intuition, because it illustrates an important principle, because of its vast generality, because of its difficulty, because of a clever solution, or even because of the simplicity or beauty of the answer. ”

Problem #9 from Mosteller's 50  
Challenging Problems in Probability is  
about the game of craps. The question  
asks, essentially, does the player of  
the casino have a better chance of  
winning the game. This is both a fun  
and reasonably difficult problem for  
kids, but it led to a terrific  
conversation. Here's how I  
introduced...
