A Brief History of Time: From the Big Bang to Black Holes is a popular-science book on cosmology by English physicist Stephen Hawking. It was first published in 1988. Hawking wrote the book for readers without prior knowledge of physics and people who are just interested in learning something new. In A Brief History of Time, Hawking writes in non-technical terms about the structure, origin, development and eventual fate of the Universe, which is the object of study of astronomy and modern physic

A Brief History of the Cold War, by  
Lee Edwards and Elizabeth Edwards  
Spalding, is a compelling account of a  
defining historical period. Incredibly  
readable (should take the college-  
educated reader no more than three  
hours), and containing a helpful  
timeline of key events and an  
excellent selection of suggested books  
and movies, this book is well suited to  
the high school and college classroom
