2. History of Science auctions focus on the highlights of scientific and technological endeavour and feature not only rare books and manuscripts from the 15th through 20th centuries, but also scientific and technological instruments from the earliest known scientific artefacts, to computing rarities from the twentieth century. The works of celebrated minds such as Darwin, Newton, Galileo, Copernicus, and Einstein are well represented, as well as the work of more recent minds such as Gödel ...

Bonhams : History of Science & Technology
History of technology, the development over time of systematic techniques for making and doing things. The term technology, a combination of the Greek technē, [art, craft,] with logos, [word, speech,] meant in Greece a discourse on the arts, both fine and applied. When it first appeared in English in the 17th century, it was used to mean a discussion of the applied arts only, and gradually these [arts] themselves came to be the object of the designation.

history of technology | Summary & Facts | Britannica
Alexander Graham Bell patents the telephone, though the true ownership of the invention remains controversial even today. Thomas Edison develops the phonograph, the first practical method of recording and playing back sound on metal foil. Lester Pelton invents a useful new kind of water turbine known as a Pelton wheel.

ICHST 2021

Science and Technology can be traced from the origin of human life 2 million years ago and each era has significant advancement. The earliest known form of S&T were human artefacts found during prehistoric time about 2.3 million years ago, they were roughly shaped stones used for chopping and scraping, found primarily in eastern Africa.

History Of Science And Technology - 1775 Words | 123 Help Me

The history of technology begins even before the beginning of our own species. Sharp flakes of stone used as knives and larger unshaped stones used as hammers and anvils have been uncovered at Lake Turkana in Kenya. The tools were made 3.3 million years ago and thus were likely used by an ancestor such as Australopithecus.
