Api Table 6b - accessibleplaces.maharashtra.gov.in

As we can see from table 6B, the volume correction factor for API at 60 Deg F of 66.0 and temperature 95 Deg F is 0.9748. Of course, if the temperature or API is between the two values listed in ASTM Table 6B, we need to interpolate to get the correct VCF.

Cargo Calculations on Tankers with ASTM Tables: Here is ...

Api 6A 6BX and API 6A 6B Flanges (welding neck flanges, blind flanges, target flanges and test flanges) are fully conformed to API 6A and made of modern alloy steel via advanced manufacturing techniques. They are robust and high cost performance. API 6 A 6B flanges are of the ring joint type and are not designed for face-to-face make-up.

Petroleum measurement tables - Petroleumproduktur - Omräk ...

Table Description: 5A, 5B and 5D take the observed API gravity and observed temperature. They return the base API gravity at 60 °F \*\*\*Note: If you select a large range of temperature or density values the server will take a long time (several minutes) to produce the results. Terms & Conditions. Compute volume correction factors for petroleum products using the algorithms in the ASTM D 1250 ...

ThermoProbe - Volume Correction Factor

API Gravity Definitions: Definition of API Gravity of water provided by WikiPedia: The American Petroleum Institute gravity, or API gravity, is a measure of how heavy or light a petroleum liquid is compared to water. If its API gravity is greater than 10, it is lighter and floats on water; if less than 10, it is heavier and sinks.

API Gravity Calculator - Crude Oil API Gravity Chart

be directed in writing to the Director of Standards, American Petroleum Institute, 1220 L Street, N.W., Washington, D.C. 20005. Requests for permission to reproduce or translate all or any part of the material published herein should also be addressed to the director. Generally, API Standards are reviewed and revised, reaffirmed, or withdrawn at least every five years. A one-time extension of ...

Manual of Petroleum Measurement Standards Chapter 11 ...

This alternate method using Table 6B is not recommended by IFIA member companies as the API gravity must be entered, calculated and reported to (2) decimal places which is considered impractical.

Petroleum and Petrochemical Bulletin

tables could easily be incorporated into computer subroutines via implementation procedures. Statistical studies were also carried out to check the data. After the publication of the Tables, API Committee on Petroleum Measurement (COPM) transitioned out of the supporting the 1952 historical tables. These tables have been archived.

Volume Correction Factor Calculation Development in ...

TABLE 54A / 6A and 54B / 6B are really the same tables. TABLE 6A and 6B are based on Fahrenheit temperatures and API gravity whereas Tables 54A and 54B are based on Centigrade temperatures and Density. Any difference is due to rounding of temperature or density.

API 6A Flanges Catalogue - Offshore Supplies

Estimate API Gravity at 60°F: 1) Usually, your API gravity reading will be at a temperature other than 60°F: To convert an API gravity reading to 60°F, we usually use ASTM Table 5B. The left and right margins of the table are annotated with the temperature. The upper margin lists the API gravity values.
