mine is a b5 a4 and doesn't have the flap. i had to get fascia adaptor plates for it to make the unit fit as the standard unit isn't DIN sized. if the front of the unit doesn't stick out too much then it shouldn't be a problem. my mate with an e39 530i has an alpine tv monitor fitted and the flap which covers the stereo has been stuck open to allow the screen to come out.

The Audi radio adapter part numbers are: 8D0 051 434 for vehicles that still have an Ignition signal at the radio, and 8E0 051 434 for vehicles that don't have the Ignition signal at the radio. From about MY2002 forward, the radios all have the ignition/accessory control information sent to the radio via the CAN bus in the vehicle.

While you wait for the new mail the Audi Radio Code Generating software application tool will process these details. It will boiled down all possibilities to only one Audi radio unlock code. This code will be send to your email address. The final step would be to turn on your Audi radio by typing in the new unlock Audi radio code.

**Audi Radio Code Generating Online Process For Free**  
Just wanted to comment since I was able to reproduce this today on my 2008 Audi A3 2.0 with the Concert II (I believe) radio. I did the wiring by cutting one end off a normal 1/8th to 1/8th stereo cable and soldering the R, L and Gnd pins to ISO connectors (Audi Part Number 000-979-009, which I got from my local VW dealer).

**VWVortex.com - Audi Concert 2+ Aux adapter install tutorial**  
Ok. Audi concert II. It appears to have two different antenna plugs (left side of the photo). The Scosche antenna adapter I got plugs into the yellow one and the Crutchfield antenna adaptor plugs into the white one. You can see in the second photo that there are cables for both connections. I checked and we don't have satellite radio.

Has a Concert II (I guess as it's a 2004 car) - I'd like to fit an 3.5mm aux-in to it in order to wire into a sat nav/mp3 player. Have had a search but could only really find tips on IPOD connection. Any experiences of something like the Connects2 CT29AU01 cable:
