Folks, I am in the market for a used Subwoofer and a quick look at audiogon, I

found 2 Subs that are
in my price range. A
used ASW800 and an
used ASW700

(actually 700 price is

in the listing). Any
other better subs in
B&W line? I do see
ASW825 for sale but
for double the cost of
ASW800. Does it
really worth the
