The most basic technique for weaving beads on a loom involves stringing a row of beads on a weft thread, bringing them up beneath the warps, and then passing the needle back through the beads on top of the wraps. Before you can even begin beading, you'll need to know how to set up your warp threads, attach the weft thread, and more. 06 of 06

Beading looms all have the same basic design with weaving achieved by inserting the weft threads (side to side threads) over and under the stationary warp threads (up and down threads). The warp threads are held in place by tension, and the weft threads, which hold your beads, are woven between the warp threads.

Bead weaving is a beadwork technique in which seed beads are woven together using thread to create a flat "fabric" or a three-dimensional shape such as a ball, clasp or tube. You can bead weave an entire piece of jewelry, or weave a component to use as part of a project. Seed beads can be woven together on a bead loom or by hand. This guide will cover the fundamentals of off-loom hand bead weaving including basic skills for getting started, our 3 favorite bead weaving stitches, and a ...

Begin to weave this thread into the work, going through the first two beads of the first row and back through the first two beads of the second row. Continue to thread the warp thread through two beads on each row until you run out of thread, then cut off the excess. Step 3. Cut the next warp thread off the loom exactly the same way as before.

Choose a bead weaving needle. Bead weaving needles are different from regular sewing needles because they are much thinner in order to pass through the holes of small beads. They also vary in length. For standard, hand bead weaving it is recommended that you use a needle that is 2 to 2 ¼ inches (5 to 6 cm) long.

One of the best beading looms you can buy today is the Clover 9910 Beading Loom, a durable and adjustable tool that will help you make all sorts of beaded creations. To use this model, you line up warp threads in the evenly spaced plastic grooves on either end, anchoring them with the included pegs and pulling them taut to make it easy to weave.

[The 7 Best Beading Looms](#)

Otherwise, warp according to the bead loom instruction and tighten the warp tension controller to set the warp tension. IT IS VERY IMPORTANT you wrap the warp the SAME DIRECTION AROUND THE PEG/PIN/NAILS, EACH WRAP, ON BOTH ENDS. Continue this same "wrap direction", around the peg/pin/nails, for every warp added, at both ends.
