Tufte has provided the discipline with a vocabulary for bad design (chartjunk, the lie factor), for particular graphic constructions (small multiples, micro/macro readings), and for his own criteria of good design (high data-ink ratio, high data density). His fourth book on the subject is titled Beautiful Evidence (2006, abbreviated below as BE).

~~Edward Tufte—Wikipedia~~

Tufte's short pamphlet about the presentation software PowerPoint, previously available as a separate publication, now appears as a chapter in Beautiful Evidence. His main points are that PowerPoint slides are typically so low in information-content that they insult the audiences they are directed towards, and that bulleted lists of slogans are just a pretence at supplying real arguments.
