Becker Cell Biology Librivox.org is a dream come true for audiobook lovers. All the books here are absolutely free, which is good news for those of us who have had to pony up ridiculously high fees for substandard audiobooks. Librivox has many volunteers that work to release quality recordings of classic books, all free for anyone to download.

Another cell biology text series - of which I owned 2 in the series - had poor diagrams/graphics and was not all that well organized. "The World of the Cell" series (which recently changed its name to "Becker's World of the Cell") starts the reader off with the basics, progresses slowly and logically, and has very good diagrams/graphics.
