Belimo HVAC damper actuators are designed for use in a wide variety of on/off, modulating or communicating damper and life safety applications. With a comprehensive torque range and the ability to direct mount on standard damper shafts or jackshafts (only in Americas), these solutions are ideal for air handlers, economizer units, VAV terminal units, fan coil units, unit ventilators, and life safety dampers.

Code Compliant. Belimo offers fire and smoke actuator replacement solutions for Siebe, Honeywell, Siemens, MultiProducts, and many other manufactures. Designed for operation in smoke and combination fire and smoke dampers with a torque range from 18 in-lbs to 180 in-lbs @ 350°F. For maximum safety, fire and smoke actuators meet all codes for commercial buildings in the U.S., passes UL 555 & UL 555S at 350°F and are tested for 30,000 open-closed cycles with approved dampers, exceeding the ...

[Fire & Smoke Actuators | Belimo](#)  
The RACAV constant airflow regulator is dedicated for ventilations systems to keep the constant air flow. The device operates without power supply, from minimum differential pressure range referred to in diagram 1 to maximum differential pressure range equal to 1000Pa. Beyond that range the accuracy of the maintained air flow may deteriorate.
