~~Blood Music~~  
Blood Music is a science fiction novel by American writer Greg Bear. It was originally published as a short story in 1983 in the American science fiction magazine Analog Science Fact & Fiction, winning the 1983 Nebula Award for Best Novelette and the 1984 Hugo Award for Best Novelette.

~~Blood Music (novel) - Wikipedia~~  
Blood Music follows a brilliant scientist that does some illegal experiments uses mammalian cells. When he is fired, to save his experiments, he injects himself. The plot quickly transitions to apocalyptic. The first third of the book reads alot like a Crichton novel, which is a positive.

If Blood Music is ever adapted into a movie, the above quote would be ideal for the movie’s slogan. It sums up the central conceit of the novel very nicely. So Vergil Ulam, a not entirely sane scientist working for a biotechnology lab, experiments with lymphocyte (a form of white blood cell) to turn them into smart cells\*.

Chapterhouse’s first album was a shoegaze/dream pop blend, but in 1993 Blood Music took a much different alternative dance/neo-psychedelia approach. It’s not as energetic and loud as Whirlpool, and it’s also about 15 minutes longer. This is probably why I found it boring at first. But what got me over time is the rhythm and atmosphere.

Jessie Prichard Hunter, in HER first novel, gives us a somewhat stylized and derivative thriller in "Blood Music." We know from the start that Patrick Wyche is the serial killer, terrozing and raping/murdering blonde women. All because of witnessing his blonde mother being murdered at the hands of his father.
