Thirteen fun, attractive projects for combining colorful mosaic motifs with the beauty of stained glass for magical results.

With 3 easy-to-master techniques, any crafter can create attention-grabbing, light-catching stained glass projects, from an Art Nouveau Tulip Panel to boxes, candleholders, birdhouses, and garden stepping stones. Artist Vicki Payne demystifies all the basic processes of using copper foil, leaded came (where individual pieces of glass are fitted into metal channels), and mosaics; she also provides beautiful patterns for creating useful and decorative items using each of the methods. Illuminating color photos, information on the variety of tools (cutters, grinders, smoothing stones, glass squaring bars) and materials, and detailed instructions for cutting the glass, soldering, and assembling the finished product will start beginners off on this classic craft.

Bring the beauty and elegance of ancient mosaics into the modern world - a place where anyone can create them. Learn how in this exciting reference that teaches even beginners to utilize common plaster compound techniques to create 15 mosaic works of art that will fool all but the most discerning eye. Simple techniques are used to apply the plaster to different surfaces, from boxes and frames to furniture. The designs are then transferred to the medium and carved with a simple wire tool. The materials are few and the cost is slim, but the result is spectacular. Projects include a serving tray, cabinet, door hanger, flowerpot, and chalkboard.

Creating or purchasing a unique piece of stained glass can be the perfect addition to any part of your home. A great stained glass piece will add texture, color, and give all of your guests something to admire. Stained glass is just what you would expect. Basically, stained glass is made of pieces of glass infused with shades of almost any color you can imagine. The pieces of glass are fused together to create stained glass pieces of many sizes and varieties. Sometimes small pieces of glass will come together and represent a scene of something recognizable like a tree, flower, or animal. Other finished works of stained glass will be a collage of colors that do not create anything we recognize.
