Eugene (Gene) Nester wrote the original version of the present text with Evans Roberts and Nancy Pearsall more than 30 years ago. That text, Microbiology: Molecules, Microbes and Man, pioneered the organ system approach to the study of infectious disease, and was developed specifically for allied health sciences.

Eugene W. Nester received his B.S. degree from Cornell University and his Ph.D. from Western Reserve University and was then a postdoctoral Research Fellow in Genetics at Stanford University. He has been a faculty member at the University of Washington since 1962 and was Chairman of the Department of Microbiology from 1982 to 1997. Dr.

~~Eugene W. Nester~~

After graduating with a bachelor's degree in microbiology from Cornell, Nester was drafted into a biological warfare unit of the U.S. Army. Before his military service, he had planned to study food microbiology at graduate school in Wisconsin, but after his discharge, he decided to study genetics and biochemistry at Case Western Reserve University instead.

~~The Insatiable Curiosity of Microbiologist Eugene Nester ...~~

It's a Friday afternoon, but Eugene Nester, PhD, is still in the office. Although he's retired, the professor emeritus of microbiology comes in regularly to review grant proposals and read up for his science discussion group — everything from math to oceanography.
