[Canon AT-1 Review](#). Canon is one of those wonderful companies that always listens to what their customers want, and the Canon AT-1 was for those people who loved the new streamlined compact design of the A-series but wanted individual exposure control like that of the FTb. In addition, many photographers were accustomed to the older CdS photocell metering system, but liked the modern centre-weighted average metering.

[Canon AT 1 Review - Peter Vis](#)

The Canon AT1 is like the unpopular sibling in a gifted family. All the Canon A brothers are talked about online all the time, and hyped up about their abilities and how fantastic they are, but not the poor old AT1. But it's a damn good camera, and I even went so far to sell my beloved black AE1 and the 28mm lens because I just don't need it!

Canon AT-1. The Canon AT-1 is a 35mm FD-mount single-lens reflex camera manufactured by Canon of Japan from December 1977. It was produced purely for export and was never sold in the home Japanese market. It is a version of the popular AE-1 but without the shutter-speed priority auto-exposure mode of that camera.

The Canon AV-1 is a 35 mm single-lens reflex camera with an FD lens mount, introduced by Canon Inc. in 1979.. The AV-1 is very similar to the 1976 AE-1 but provides aperture priority autoexposure rather than the AE-1's shutter speed priority AE. The camera is not capable of fully manual exposure. Canon's international distributors, particularly in the United States, had clamored for such a ...

I bought my Canon AT-1 back in the 70's and used it for many years to take pictures of my 7 children as they were growing up. I have very few pictures that came out badly, mostly my fault, then decided to go more auto, and traded it for a Nikon 4004s which was a great camera, but not as good as my old canon AT-1.

Hi Canon AT-1 Camera Body. Used but in good condition and fully working. Supplied with 6v battery and two split metal strap fixings. See photographs. One Flaw: a small amount of plastic has broken off the base of the battery cover; see the two pictures. The damage is minor and cosmetic - the camera still functions ok. A lovely little unit blissfully free of gimmicks. </p><p>Lens mount is Canon ...
