Samyang XP 10mm F3.5 Manual-Focus Ultra-Wide-Angle 50MP ...

The focus ring of this manual wide angle lens is all-metal anodized with grooved surface and moderately damped. The 150-degree focus rotation makes ultra-high-precision focusing possible. Automatic electronic chip is able to activate focal point of Single Lens Reflex (SLR) camera. While in focusing, corresponding point location will light up.

9 Best Wide Angle Lenses (Manual) 2019 - Buyer's Guide

A brilliant option if you want to dip your toe into fisheye photography but you don't have the budget for one of Canon's fisheye optics, this fisheye lens boasts a super-wide 8mm focal length that lets you capture images with a diagonal angle of view of 167 degrees*, when using a Canon APS-C body. While it's a manual-focus-only lens, the combination of focus markings on the barrel and the live-view functionality should help you to get focus spot on.

Meike 16mm T2.2 Manual Focus Wide Angle Fixed Prime ...
This is a manual focus, manual aperture, manual exposure lens that does not report any information (not even the aperture used) to the camera. However, the feature that matters most for most ultra-wide angle photography, image sharpness, is there and the very affordable price makes this lens a very attractive option.
