Chapter 1 Science Skills Summary

1.1 What Is Science? Science begins with curiosity and often

Read Book Chapter 1

Science Skills Using

ends with discovery. Science and technology depend on each other. Advances in one lead to advances in the other. • Science is a system of knowledge and the methods you use to find that knowledge. • Technology is the use of knowledge to solve practical problems.

Chapter 1 Science Skills

1.2 Using a Scientific Approach.

Steps (in traditional order) Making Observations – using your senses to gather information. Ask a Question – usually based on some observations (Do cell phones cause brain cancer?) Hypothesis – a proposed answer to a question – so it is a statement (Eating fish makes a person smarter.)

1.4 – Presenting Scientific Data.

Scientists can organize their data by using data tables and graphs.

These tools make it easier to spot patterns or trends in the data that can support or disprove a

hypothesis. A data table is the simplest way to organize data.

Below is an example of a data table. Average Annual
