German federal police aviation units have moved a step closer to fielding an advanced helmet-mounted display (HMD) system across their Airbus Helicopters H215 fleet.

Bundespolizei H215 pilots to be first civil users of HMD system
The global pandemic has exposed some structural flaws in the funding models for air navigation service providers (ANSP), a critical component in the safety of the civil aviation industry, according to ...

New report outlines how civil aviation could navigate post-pandemic funding
On June 19, a SpiceJet Boeing 737-800 on the Patna-Delhi sector (SG723) with 185 passengers was in the climbout phase (the period immediately after take-off during which the aircraft climbs to a ...

Understanding bird strikes and aviation safety
SINGAPORE: The aviation industry in Singapore may not face as much of a struggle to rehire workers as cities in Europe and US, but experts say there are still potential bottlenecks in a sector that is ...

Workers returning to aviation sector but some roles hard to fill, say firms and experts
A newly proposed Part 38 rule would add a new fuel efficiency metric to the FAA's Federal Aviation Regulations, under Part 38.

Proposed Part 38 Rule Would Add New Fuel Efficiency Metric to Federal Aviation Regulations
THE UK is testing a homegrown GPS overlay system to help planes navigate and land. The service could replace the European equivalent, EGNOS - and may even help pave the way for a full-blown UK global ...

UK testing GPS overlay system for aviation to replace European service
In addition to the flight control computer, Volocopter and Diehl agreed to expand their cooperation: Diehl Aerospace has been commissioned with the development and production of optical avionics ...

Diehl aviation expands cooperation with Volocopter for the all-electric air taxi VoloCity
MITRE named Kerry Buckley, Ph.D., vice president, Center for Advanced Aviation System Development (CAASD). CAASD is the federally funded research and development center that MITRE operates in support ...

MITRE Names New Leadership for the Center for Advanced Aviation System Development and Air and Space Forces Division
China recently issued its latest five-year plan for general aviation, which aims to provide a “strong legal guarantee” for advancing civil aviation.

China Updates Five-year General Aviation Plan
Sim Kee Boon was one of Singapore's pioneer civil servants, having joined the civil service even before independence, in 1953. From 1975 to 1984, Sim was permanent secretary (communications) and ...

Changi Airport's construction was expected to take 10 years. A pioneer civil servant was asked to do it in just 6.
Maintaining safety of passengers, flight crews, and aircraft must continue to be governments' highest priorities' ...

Governments, aviation industry should work together to counter disruptions due to 5G rollout: IATA
Civil aviation minister Jyotiraditya Scindia has termed this feat a fine example of the implementation of the 'minimum government, maximum governance' motto.

Aviation ministry awards maiden certification for drone prototype in record time
A study to examine the benefits of a space-based system to allow pilots to talk to air traffic controllers will see Singapore involved in the launch of a communication satellite into space.

Singapore explores space-based system to improve air traffic control
Yamuna International Airport Private Limited (YIAPL) has selected ICAD Holding as Master System Integrator (MSI) consultant for the development of Noida International Airport (NIA). ICAD will support ...
