communicating health a culture centered approach

Sickas inom 7-10 vardagar. 949. The culture-centred approach offered in this book argues that communication theorizing ought to locate culture at the centre of the communication process such that the theories are contextually embedded and co-constructed through dialogue with the cultural participants. The discussions in the book situate health communication within local contexts by looking at identities, meanings and experiences of health among community members, and locating them in the ...
