Designing With Light The Art Science And Practice Of ...

Designing with Light: The Art, Science and Practice of Architectural Lighting Design does this from a unique perspective. First, I emphasize design as a multi-pronged process. All lighting textbooks identify the functional components of lighting design such as appropriate illumination for tasks, balance of task and background brightness, and providing a pleasing environment.

Amazon.com: Designing With Light: The Art, Science and ...

The use of light as a medium in the production of art has a long and varied history. Usually, in light art works, light is the main medium of expression—an art form in which either a sculpture of some form produces light, or where a kind of disembodied sculptural presence is created through the manipulation of light, colours, and shadows.
