Oxford University Press, 1998 - Psychology - 502 pages. 0 Reviews. Psychologists today must deal with a broad range of ethical issues--from charging fees to maintaining a client's confidentiality, and from conducting research to respecting clients, colleagues, and students. As the field of psychology has grown in size and scope, the role of ethics has become more important and complex whether the psychologist is involved in teaching, counseling, research, or practice.

~~Ethics in Psychology: Professional Standards and Cases~~...

Developed around the ethics code of the American Psychological Association, "Ethics in Psychology" heightens the awareness of ethical standards within psychology and shows how these standards apply to specific situations.

Ethics. Ethics express the professional values foundational to the profession. In psychology, APA's Ethical Principles of Psychologists and Code of Conduct includes sections on clinical practice, education, research and publication. APA's Ethical Principles of Psychologists and Code of Conduct "provides a common set of principles and standards upon which psychologists build their professional and scientific work....

~~Ethics in Psychology - American Psychological Association~~

The Society's Code of Ethics and Conduct is designed to guide all members of the British Psychological Society in their day-to-day professional conduct. It focusses on our four primary ethical principles of respect, competence, responsibility, and integrity.

~~Standards and Guidelines | BPS~~

The modifiers used in some of the standards of this Ethics Code (e.g., reasonably, appropriate, potentially) are included in the standards when they would (1) allow professional judgment on the part of psychologists, (2) eliminate injustice or inequality that would occur without the modifier, (3) ensure applicability across the broad range of activities conducted by psychologists, or (4) guard against a set of rigid rules that might be quickly outdated.

~~Ethical principles of psychologists and code of conduct~~

An approved registration standard, code or guideline is admissible in proceedings under the National Law or a law of a co-regulatory jurisdiction (NSW) against a registered psychologist as evidence of what constitutes appropriate professional conduct or practice for the profession.
