To use the calculator, provide your statistics, then select "fat loss" as your goal. Pick an activity level that matches how active you really are. If you say you're more active than you are, the calculator will give you more calories per day. If you consume all of them, you'll gain weight.

Lose Belly Fat: Fat Loss Meal Plan & Training Program ...

Strength training for fat loss is a controversial topic. Lots of people out there believe that lifting weights is only useful if your goal is to build muscle and gain strength. And if you don't want to be "big" and "bulky" you'd be much better off doing cardio instead. To be clear, cardio can help with fat loss, but using it as a stand-alone tool for the job won't deliver ...
