Financial Accounting Comprehensive Problem Solution

Accounting is based on the principle of two-sided. In order to carry out business activities, the company needs funds; these funds must be given to the company by someone. The funds owned by the company are called assets. Part of these assets is provided by the owner, total amount of funds contributed by him is called owner's equity or capital. If the owner is the only one who contributed ...

General Ledger Problems and Solutions | Accountancy Knowledge

Decreasing cash decreases assets; decreasing accounts payable decreases liabilities. $\text{Assets (decrease)} = \text{Liabilities (decrease)} + \text{Equity (no change)}$. 9. The combined total of liabilities and equity equals the total of assets because there is a claim against every asset that the company owns.
