Financial Accounting Theory—William R. Scott—Google Books
Written in a friendly style with clear explanations, Financial Accounting Theory provides a thorough presentation of financial accounting theories. This new edition continues to include considerable coverage of accounting standards oriented to IASB standards as well as major U.S. accounting standards. While the text discussion concentrates on relating standards to the theoretical framework of the book, the coverage provides students with exposure to the contents of the standards themselves.

Scott, Financial Accounting Theory, 7th Edition | Pearson
Description. Financial Accounting Theory presents financial accounting as a means to resolve problems of asymmetric information and to facilitate contracting. It develops ideas from decision theory and information economics to emphasize that accounting serves important purposes in society, of enhancing trust and meeting information needs.
