Life Science Lab Safety Flinn Scientific Lab Techniques Guide

Flinn Scientific Laboratory Techniques Guide, Pkg. of 30. By: The Flinn Staff. Item #: AP6248. Price: \$19.50. In Stock. The Flinn Scientific Laboratory Techniques Guide provides quick and accurate answers to frequently asked lab questions. The handy guide includes beautiful illustrations of lab glassware and equipment to help instructors teach effectively and safely.

Flinn Scientific Laboratory Techniques Guide, Pkg. of 30

The guide includes helpful checklists for various teaching and storage spaces, chemical hygiene plans, and articles related to safe laboratory design. If you have any questions regarding the materials you find in the Science Facilities Design Guide, please feel free to call Flinn Scientific Canada at 844-200-1455 or email flinn@flinnsci.ca for more information.

Lab Design Guide - flinnsci.ca

lab techniques and data collection with prompts and analysis questions intentionally designed to engage students in science and engineering practices. Students observe and refine experiments, identify design flaws, analyze data, and practice scientific reasoning while connecting science to natural phenomena. Physical Sciences Overview Physical Sciences includes ten labs:

Physical Sciences Overview

Flinn At-Home Lab 6–Titrations (L6) In this lab students will watch a titration in action and understand how it relates to acid-base chemistry and stoichiometry. Students will learn how titrations can be performed to determine the unknown concentrations of acids and bases, and how this idea is applied in the production of commercial products.

Recorded Labs - Flinn Scientific

Flinn Scientific is the #1 source for science supplies and equipment both in and outside the classroom. For more than 40 years, Flinn has been the “ Safer Source for Science. ”

Flinn Scientific

Filtration is a foundational technique used ubiquitously in the biological sciences and is an essential step in many protocols. One of its common applications is the generation of clean water...

AP<sup>®</sup> Inquiry Labs aligned to the Big Ideas, Learning Objectives and Science Practices offer blended learning options that combine the benefits of classroom, laboratory, and digital learning. AP<sup>®</sup> Chemistry and AP<sup>®</sup> Biology both include virtual reality simulations. Everything comes together as students apply their knowledge and practice with exam style questions.

### FlinnPREP

Flinn Scientific, a flagship provider of science lab materials and safety and STEM solutions for the K-16 education market, is launching two new solutions – 360Science™ and Science2Go – to support hands-on learning this coming school year. Now, regardless if learning is taking place in a virtual, hybrid, or in-person environment, educators will have the resources needed to teach students about important scientific concepts and phenomena in a safe, effective, and engaging way.
