Food Rebellions! takes a deep look at the world food crisis and its impact on the Global South and under-served communities in the industrial North. While most governments and multilateral organisations offer short-term solutions based on proximate causes, authors Eric Holt-Giménez and Raj Patel unpack the planet's environmentally and economically vulnerable food systems to reveal the root causes of the crisis.

The World Food Program describes the current global food crisis as a silent tsunami, with billions of people going hungry. Hunger is, indeed, coming in waves, but not everyone will drown in famine. The recurrent food crises are making a handful of corporations very rich—even as they put the rest of the

Food Rebellions capably addresses a timely and important subject - but not in a particularly convincing or engaging manner. The body of the book itself is primarily a collection of statistics and citations that do little to draw the reader into the story of the food crisis or the lives of those who hunger for justice.
