### An introduction to moon gardening - Saga

Moon planting – or using the phases of the moon to guide your monthly gardening activities – can help to maximise the potential of your harvests. The moon’s phases influence gravitational pull on Earth, from our tidal oceans down to the moisture in the earth and plants. Moon planting: The 4 phases of the moon

### Moon Planting Guide: Gardening by the Phases of the Moon

Gardening by the moon has been practised through the ages. Gardeners know seeds and plants grow more quickly during some parts of the month than others. The reason is the moon has a strong gravitational pull. Just as it controls the tides, so it controls the moisture in the soil and influences how quickly seeds germinate and plants grow.

### Organic Edible Garden shows you how to put homegrown ...

Gardening by the Moon, or more specifically, according to the phases of the Moon, is an idea that has been around for as long as humans have been growing their own food.

### Why Do We Garden By The Moon? Farmers' Almanac

Gardening by the moon or the zodiac elements is a holistic gardening process that allows our gardening practices to root us to our ancestral path. Even in our modern times, we have the opportunity to follow traditions that have been practiced for centuries.
