Jupiter Announces Climate Risk Analytics Collaboration with the Boston Consulting Group

Now is the moment for the international community to stand in solidarity and decisively act to protect the human rights of people in all nations, rich and poor, north and south, who are suffering the ...

Addressing Climate Change Is Safeguarding Human Rights | Opinion

The world's most existential crisis has all but fallen off Washington's agenda. But campaigners are finding success in more immediate targets.

The Movements Taking Climate Action Where Politicians Won't

A new report from BBMG and GlobeScan outlines five principles for brand leadership in an era of shifting paradigms.

Brands have a role in global regeneration. But first they must rethink everything.

We need the same urgency to treat climate change as when everyone jumped to combat the COVID-19 pandemic. Otherwise - our health is due for a downward spiral in coming years.

Infertility, heart failure and kidney disease: How does climate change impact the human body?

When we talk about changing individual behaviour and lifestyle for the environment, it must be noted that the individual and the collective are closely entwined for preserving the environment.

Pathways to LIFE: Moving towards indigenous solutions for climate sustainability

Climate change affects everyone, but especially children. Their small bodies—and the fact that they grow so rapidly, starting from the time they're in utero—make them more vulnerable to toxins, ...

How Climate Change and Air Pollution Affect Kids' Health

The amount of money needed to aid communities in the face of extreme weather-related emergencies has increased by more than 800% in the past two decades as the climate crisis also rapidly accelerated, ...

Climate crisis costs up over 800% as UN donor nations fail to keep pace, report says

The path to revitalize infrastructure as an engine of future economic growth must begin with a series of 'lighthouse projects' that prove viability.

Climate resilience and the new era of urban infrastructure

Climate change perturbations are impacting wineries globally. Some viticulturists are experimenting with a mix of modern and ancient techniques to mitigate its effects, using complexity to solve a ...

Building Vineyard Biodiversity Aids In Combating Climate Change

As the number of climate cases grows worldwide, companies need to make sure that their net zero plans are real if they want to avoid being sued.

Climate Litigators Are Targeting Companies

Even though Cincinnati has been called a "climate haven," threats from summer heat, winter warming, heavy rains, and flooding are growing.
