One of the most common graphic design jobs is multimedia design. If you explore graphic design career options in this field there are a few skills you might need to develop. A multimedia designer uses

art, sound, and design skills to create videos, audio, and animated images. They produce sketches, plans, scale models, or drawings.

Top 8 Graphic Design Jobs You Should Pursue For Your Career
Environmental graphic design is a multidisciplinary practice that merges graphic, architectural, interior, landscape and industrial design. Designers collaborate with people in any number of these fields to plan and implement their designs. Because of that, designers typically have education and experience in both graphic design and architecture.
