This book is about an "accidental" death of a child's parents and his godmother flies across the country to take care of him. Mysterious happenings occur on this ranch setting and questions arise of their deaths. This was a likable read from this author. John Saul has a reputation of his books dealing with children and this one was no exception.

I am a firm fan of John Saul, and, like Stephen king, he gets to your "bones" with his chilling detail! Guardian was full of twists and suspense....it was one you hated to put down, to even eat!

GUARDIAN was the first novel by John Saul that I read. I don't remember who recommended this author to me, but I'm very grateful for that advice, even though it cost me a few nights of sleep! GUARDIAN is the story of Mary Anne Carpenter who moves to Idaho with her two children to become the guardian of her teenage godson who has recently become orphaned (hence the book title). The people in ...

Another terrifying, classic horror novel from best-selling author John Saul. An insidious madman haunts the peaceful town of Borrego, New Mexico. His goal is singular, as is the focus of his hate and rage. The teenagers of the town seem to have gone too far, and now he will strike back - while they sleep and even during their waking hours - and silence them forever.
