The data presented herein include: Description of Fuels;

Handbook Of Aviation Fuel Properties 4th Edition ... Performance Properties Since the primary function of aviation turbine fuel (jet fuel) is to power an aircraft,energy contentand combustion qualityare key fuel performance properties. Other signi fi cant perform- ance properties are stability, lubricity, fl uidity, volatility, non-corrosivity,and cleanliness.

Aviation Technical Aviation Fuels - Chevron.com 6.2. PRODUCTION AND PROPERTIES Aviation fuels have a narrower distillation range than motor gasoline, and the octane ratings of aviation gasoline and motor gasoline are not compa-rable because of the different test methods used to rate the two types of fuels.In addition,motor gasoline has a shorter storage stability lifetime than
