## ~~Homemade Stirlings • Diy Stirling Engine~~

If you're looking to build a homemade Stirling engine you can find many online recourses. There are books on the topic too. I would say that Jim R. Larsen's book The Quick and Easy Stirling Engine is a great place to start. It walks you through the process of making a soda can Stirling that can run using the heat of a candle.

Stirling engine ...~~

There are a few basic parts to the kind of stirling engine we are going to build. There is the flywheel, power piston and displacer. The power piston is what captures the expansion and contraction of the working fluid. The displacer moves air inside the engine to heat it up or cool it off.

paste can and other household items. This is a single cylinder design or beta configuration. I start out with an...

~~How to Make Stirling Engine — Single Cylinder Tomato Can ...~~

Step #1: Make the piston subassemblies. Next Prev. There are two pistons in this engine, one for the hot side and one for the cold side. With a hacksaw, carefully remove the top end of each soda can. Cut the can at the point where the flat side of the can curves to meet the top, resulting in a 4"-long piston.

using the heat of a cup of coffee. No machining required.

~~Plans for Everything — Stirling Engine Plans~~  
The Stirling engine (or Stirling's air engine as it was known at the time) was invented and patented in 1816. It followed earlier attempts at making an air engine but was probably the first put to practical use when, in 1818, an engine built by Stirling was employed pumping water in a quarry. The main subject of Stirling's original patent was a heat exchanger, which he called an "economiser ...
