[Groopman](#)

How Doctors Think is a window into the mind of the physician and an insightful examination of the all-important relationship between doctors and their patients. In this myth-shattering work, Jerome Groopman explores the forces and thought processes behind the decisions doctors make. He pinpoints why doctors succeed and why they err.

[How Doctors Think: Amazon.co.uk: Jerome Groopman: Books](#)

How Doctors Think is a book released in March 2007 by Jerome Groopman, the Dina and Raphael Recanati Chair of Medicine at Harvard Medical School, chief of experimental medicine at Beth Israel Deaconess Medical Center in Boston, and staff writer for The New Yorker magazine. The book opens with a discussion of a woman in her thirties who suffered daily stomach cramps and serious weight loss, and who visited some 30 doctors over a period of 15 years. Several misdiagnoses were made before she was fi
