Now inside this 'scripts directory', create a new file named hello.sh using the cat command: `cat > hello.sh`. Insert the following line in it by typing it in the terminal: `echo 'Hello, World!'` Press `Ctrl+D` to save the text to the file and come out of the cat command. You can also use a terminal-based text editor like Vim, Emacs or Nano. If you are using a desktop Linux, you may also use a graphical text editor like Gedit to add the text to this file.

How To Make Something People Give A Shit About | Observer

Specify the pathname to the script file (rather than typing in inshall.sh) as a security measure. The shell wants to make sure it is running the correct install.sh, requiring you to specify its exact location. The only exception is if your script is located in a directory listed in your system's PATH environment variable.

Fold the bottom half of the parchment paper over the top half so it covers the kief. You can even fold the parchment several more times to create a little packet. Place the parchment paper on an iron-ready surface (an ironing board works great). Place the hand towel or t-shirt over the parchment paper.
