How to test drive a car: top tips | Carbuyer

Talk to your insurer if you are unsure. Your own insurer may offer you comprehensive cover over a short period of time so that you can test drive cars you are thinking of buying. Buy a used car from a name you can trust. Try to take your time on a test drive, even if you feel the seller breathing down your neck.

Test driving a car - tips on what to do | AA Cars

A test drive is necessary if you want an accurate idea of how your potential new car is going to handle. Knowing the limits of your vehicle can keep you safe in dangerous situations when maneuverability counts most.

How to Test Drive a Car (with Pictures) - wikiHow

Here's how to make the most of your test drive: Take a passenger to find out how the car feels to them. Allow at least an hour for your test drive – in town, out on the open road and on a motorway if possible. If you're on a motorway or dual carriageway, try overtaking – checking for good acceleration and any blind spots.

How to test drive and check a new car - Money Advice Service

Check the body near the exhaust – a dark oily layer, coupled with excessive exhaust smoke could be a sign the piston rings are worn out. Check the engine coolant and brake fluid levels, plus the battery (the terminals should be rust-free and clear of debris). After the test drive, check for leaks in the engine bay and underneath the car.

How to test drive and check a used car - Money Advice Service

Test-drive a car only after you have done some preliminary research and have found one that's likely to fit your needs and your budget.

How to Test-Drive a Car | Edmunds.com

Before you test drive a used car, you should give it a thorough going over inside and out, looking for any potential signs of trouble. That means looking over the body, as well as in the cabin, under the bonnet, and in the boot.

How do I test drive a used car? | Auto Trader UK

In XP, this is in View > Explorer Bar > Folders. Right-click or tap-and-hold the drive that you want to check for errors on (usually C), and select Properties. If you don't see any drives under the heading you located in Step 2, select the little arrow to the left to show the list of drives. Select the Tools tab at the top of the window.
