Bimodal LLDPE is targeted to compete with high-pressure LDPE and with bimodal HDPE in thin film applications. This report reviews the process technologies for manufacturing bimodal LLDPE products and their production economics. We evaluate UNIPOL II® technology, Borstar® technology, and a mixed catalyst technology.

Ihs Chemical Bimodal Hdpe - artweek.la

Future growth in world HDPE consumption will be driven by the status and progress of regional economies, continued substitution of HDPE for traditional materials (e.g., glass, wood, concrete, paper), and avoidance of obsolescence of HDPE in some traditional applications. This latter factor will be more evident in the developed regions of the world, where continued improvements in polyolefin ...

Ihs Chemical Bimodal Hdpe - catalog.drapp.com.ar

OverviewHDPE 35060E is a bimodal High Density Polyethylene Resin that combines high environmental stress crack resistance and stiffness with good impact resistance. It is especially suitable for the production of bottles, containers and technical hollow articles up to 5 liters by extrusion blow molding (EBM) and compression blow forming (CBF).

DOW™ HDPE 35060E HighDensityPolyethyleneResin
