5.1 The induction process should begin before the person has started. This includes offer letters and information from Human Resources (HR) and ensuring induction arrangements are in place in line with this policy and procedure. 5.2 The length of induction will depend upon the individual, the post and Directorate requirements.

Corporate Induction Policy and Procedure

• Principle of Operation A rotating field is set up in the stator when a 3- Phase supply is given. The stationary rotor cut the revolving field and due to electromagnetic induction an e.m.f. is induced in the rotor conductor. As the rotor conductor is short circuited current flows through them. It becomes a current carrying conductor in magnetic field and start rotating.
