Probability and Statistics ...

Probability is starting with an animal,
and figuring out what footprints it will

Online Library Introduction To Probability And

Statistics is seeing a footprint,
and guessing the animal. Probability is
straightforward: you have the bear.
Measure the foot size, the leg length,
and you can deduce the footprints.

and Statistics ...

A probability of one represents certainty: if you flip a coin, the probability you'll get heads or tails is one (assuming it can't land on the rim, fall into a black hole, or some such).

The probability of getting a given

Online Library Introduction To Probability And

number of heads from four flips is, then, simply the number of ways that number of heads can occur, divided by the number of total results of four flips, 16.
