The most common way to test for color blindness is known as the Ishihara Color Test. Dr Shinobu Ishihara, a University of Tokyo professor, created a series of plates to be

# Read Online Ishiharas Tests

used to identify  
red green color  
blindness. As  
you see in the  
image below,  
they contain a  
series of 38  
plates; however  
an issue is  
normally well  
apparent after  
only a few.
