ISO4730: 2017 Standard. The chemical composition of tea tree oil is defined by international standard ISO 4730: 2017 which specifies levels of 15 of the more than 113 components found in pure Australian tea tree oil as well as a number of physical parameters. Any batch of oil sold by an ATTIA member must be accompanied by an independently tested certificate of analysis demonstrating conformance to these Standards.

The benefits of International Standards (ISO) – Synergos ...

Variations are ISO 0, with no sugar; ISO 2, with two spoons of sugar; and so on. This may derive from the “NATO standard” cup of coffee and tea (milk and two sugars), military slang going back to the late 1950s and parodying NATO's relentless bureaucratic drive to standardize parts across European and U.S. militaries.
