Good Laboratory Practice (GLP) regulations require the appointment of a Study Director by Test Facility Management for each study. By virtue of the legal status of the Study Director in testifying to the performance, compliance, accuracy and integrity of the conduct of the study, its data and the final report, the role of the GLP Study Director is critical to study integrity and regulatory compliance and potentially the most complex.

A Practical Guide for the Good Laboratory Practice Study ...

Download Free Laboratory Guide For The Study Of The Frog An Introduction To Anatomy Histology And Physiology

Of course, a laboratory report can only be as good as the experimental work on which it is based. What is sometimes overlooked, however, is the quality of the record written in the laboratory. For some experiments you will be given specially prepared report forms that specify exactly what is required.
