Superficial, not enough to really get you started on actually repairing Leica Cameras. Covers way too many models from all the screw mounts, M and even R models with 1-2 pages at the most for each one. The book essentially gives you an idea of what it takes to repair cameras but is not a step by step illustrated guide for actually repairing them.

Latest information concerning the repair capacity for camera models Leica M9 / M9-P / M9 Monochrom / M-E . The production of the CCD sensors for the Leica M9 models has been discontinued. Therefore, subsequent deliveries are no longer possible and defective sensors cannot be replaced. Until further notice, all other repairs on the M9 model generation can still be carried out. In place of the ...

Cheaper film Leica's you can start off with include the Leica M4 (built like the M6, but doesn't have a meter) and Leica M5 (body styling is different, but still a good camera). If you don't want to bother with film, want a Leica, and might be more on a budget— I'd recommend a second-hand Leica M8 or Leica M9 (for the rangefinder 'experience').
