Assignment" and submit to your teacher for evaluation.

## Ratios, Rates and Proportions - Sabre

## Success

So the ratio of flour to milk is $3: 2$. To make pancakes for a LOT of people we might need 4 times the quantity, so we multiply the numbers by 4 : $3 \times 4: 2 \times 4=12$ $: 8$. In other words, 12 cups of flour and 8 cups of milk. The ratio is still the same, so the pancakes should be just as yummy.

## Ratios - MATH

In this lesson, students reason about two situations by applying equivalent ratios on double number lines. By writing ratios where one of the pairs of corresponding values are the same, they are able to reason about the situation by looking at the other pair of values.
