With quickly advancing technology to prevent, detect and respond to intrusions and ever-evolving threats, keeping up on the latest information you need to protect your confidential data can be a daunting task. The second edition of *Locked Down* is the answer to this challenge. Authors Sharon D. Nelson, David G. Ries, and John W. Simek are recognized experts in cybersecurity, and their lectures draw standing-room-only crowds.

*Locked Down Information Security For Lawyers [PDF]*

A lockdown is a requirement for people to stay where they are, usually due to specific risks to themselves or to others if they can move freely. The term "stay-at-home" or "shelter-in-place" is often used for lockdowns that affect an area, rather than specific locations. Widespread lockdowns were issued in the COVID-19 pandemic. The term is used for a prison protocol that usually prevents people, information or objects from leaving an area. The protocol can usually only be initiated by someone i
