Book description. Getting Started with CNC is the definitive
introduction to working with affordable desktop and benchtop
CNCs, written by the creator of the popular open hardware CNC,
the Shapeoko. Accessible 3D printing introduced the masses to
computer-controlled additive fabrication. But the flip side of that is
subtractive fabrication: instead of adding material to create a shape
like a 3D printer does, a CNC starts with a solid piece of material
and takes away from it.
