~~What is a
Management
Information System
(MIS ...~~

An information
system refers to a
set of network of
components which

Where To Download

act together towards producing, distributing and processing information. Lets understand the various aspects of management information systems in detail.

~~Management
Information System
Understanding~~

Where To Download Information

The importance of management information systems lies in its ability to serve as a database for all company information. This can be accessed at different levels by all employees and keeps sales figures, expenses and all
