Project MUSE – Managing Risk in Developing Countries

developing countries avoid the threats that come with importing a risk management approach from elsewhere? These steps will help: • Self-awareness. Knowing ourselves will help us to develop a more realistic approach to managing risk. We should study our history to discover how risk has been considered and managed in the past, and we should look for particular cultural influences that might affect how we perceive risk. • Real Needs. What exactly do we need? Organizations in developing ...
