Fingerprint Source Book - gov.uk
Advance Fingerprint Identification Technology. In 2011, the FBI launched its Advance Fingerprint Identification Technology (AFIT) system which enhanced fingerprint and latent print processing services. The system increased the accuracy and daily processing capacity of the agency and also improved the system's availability. The AFIT system implemented a new fingerprint matching algorithm which increased the accuracy of fingerprint matching from 92% to more than 99.6%, according to the FBI.
