Europe's No.1 for Home Fitness - Powerhouse Fitness

Some exercise bikes use a direct tension resistance operation, which requires a manual adjustment, usually controlled by a knob near the handlebar. An exercise bike with around 16 difficulty levels is a good starting point. The cardiostrong BX60 Upright Exercise Bike features 32 levels of resistance! PART 6: FLYWHEEL

Exercise Bikes - Powerhouse Fitness

Manual - The manual treadmill is powered by the user themselves; they have control over the belt to rotate it around the treadmill at their desired speed. This naturally gives a good workout to the lower body as all the force is coming from the legs and not the machine.
